

K-LOVE is a vital part of my community providing positive programming, regional news, and community announcements throughout the day.

K-LOVE also meets the need of a large Christian listening audience in my area that will be greatly missed should K-LOVE be replaced by a LPFM broadcaster.

Radio frequencies are full of secular programming choices. Fortunately for millions of us within K-LOVE's range, we have an uplifting alternative to much of what commercial radio offers. Please help keep K-LOVE's signal secure so that my community has this positive and compassionate alternative available for news, information, and artistic expression.

Thanks You for your timely consideration of this matter.

Respectfully,

Daniel Hale, M.A.  
Teacher
